

Electradrop

"Electric Drop Bolt"

LOCINOX®

Let's make better fences together

Electric 24 V drop bolt with 115 mm throw for safe locking of automated gates. By securing your gate with a drop bolt you disburden the electric gate motors.

Specifications:

- Easy mounting with Quick-Fix
- Mechanical release possible (by key) in case of emergency or power failure
- Throw: 115 mm
- Obstacle detection with automatic stop
- Can be connected to the warning light on automated gate
- Can be connected to any automated gate system
- For gate profiles: 40 mm or more

Accessories:

PB-1

DC-POWER24V / 25W

1	Brown	Connect to the positive of the power source 24 V DC (+)
2	Grey	Indicator signal coming from relay
3	Black	Optional: Readout of drop bolt position
4	Black	
5	Blue	Zero-clip of the power source 0 V DC (-)
Control signal		Parallel connection over the indicator signal of the gate

Power supply	24 V DC (polariteit beveiligd)
Consumption	11 W
Consumption at rest	0,2 W
Isolation class	□
Maximum voltage to the contact (3-4)	200 V (DC of piek AC)
Maximum current to the contact (3-4)	1 A (DC of piek AC)
Maximum power to the contact (3-4)	20 W
