

Domestic Sliding Gate Operator DIY Kit

PowerGater 2 is a **compact and versatile** all-in-one electromechanical gear motor for sliding gates up to 600kg. Designed for domestic or light industrial use, the 12VDC plug pack Transformer eliminates the need for mains power at your gate. Optional power from a 12V Solar Panel. Safety Features include Auto Reverse Sensitivity Adjustment and inputs for Photo Electric Beams, Ground Loops and Access Control Equipment. Battery Backup is included. Simple to install – supplied in a complete DIY Kit.

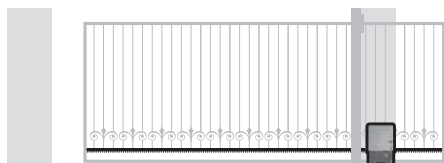

POWER SUPPLY

12V DC Transformer (Standard)

12V Solar Panel (Optional)
